

Dear Persons, I am no way a person of political anything. Matter of fact I dont know much of anything other than the issue you are bringing here. I DO NOT WANT XM RADIO TO STOP BROAD CASTING INSTANT WEATHER OR TRAFIC REPORTS !!! My XM Radio is the best for a number of reasons and I will detail this in my support to stop the Goverment from eliminating XM Radio. First I pay a fee every month for this service. In the USA I should have those freedoms to lisen to what I pay for as long as its worth lisening to. XM Radio IS worth my payments every month for the excellent service I recieve.

I have no interest in regular radio broadcast any more as the nasty crap that is spoken on todays radio stations is not worth my time to turn it on. In most cases on regular radio broad casts, by the time the Disjockys get done with alll the million comercials and stupid adds that dont mean any thing to me any how... And all the stupid disjockies verbal crap talking nasty and loud and stupid every morning. Never getting to the point of whats the traffic situation ahead of me. Or the weather conditions for that area and day.

I chose XM radio service and pay a monthly fee to eliminate all the Nasty talking DJ business and wasted time on the air and wasting my time to have to put up with just to hear 60 seconds of weather and traffic information. I STRONGLY APPOSE Petition 04-160 and 4026.

You people need to focus on those regular radio broadcasters that talk nasty and tell untrue stories wasting my time . Also millions of stupid commecials adding to more wasted time ... This is what I pay to get completely away from.

With XM Radio. I have a number of adult sellection of what I want to lisen to that day evening or morning. I know when I turn on my XM radio I will receive the best information available any ware and right to the point. I also know I wont have to put up with a million commercials and garbage talk from the DJ's that I found very disturbing and useless information.
